

1907 Club

On July 15th we will have our first re-launch draw.

The 1907 club is the easiest way we can help enhance our children's experience at Hitchin Girls' School as it has the least effort with the most reward by making a small annual member payment. I'm sure you have all seen or heard of this type of club.

The cost of this club is £1 per month per entry and there are no limit to the amount of entries per family. So everyone can be involved, including grandparents.

Here is how it works.

Each monthly draw will be carried out on the 15th day. All members fully paid up will be entered to get the chance to win 35% of 1/12th of the total member's annual subscription.

Example

500 members will have an annual subscription amount of £6000.

This example gives a £175.00 first prize for one of our lucky members

It doesn't stop there, we are also now having a 2nd prize winner of 5% of 1/12th of the total member's annual subscription.

This gives each of us two chances to win each month.

Also for the re-launch all fully paid entries will also be entered into another one off draw which could also see your daughter winning a new 16 GB iPad mini-2. This draw will take place on 15th September 2015.

If all that wasn't enough, in this example, you have also helped raise £3600 of funds for the school which we allocate to projects that enhance our girls' experience and learning environment. This in the past has ranged from the pat on the back sticker which girls' love to get and gives them great pride, to the most recent supply of a new computer to run the laser cutter in our tech department. Our girls can now have the experience of using the laser machine rather than waiting most of the lesson for the software to work. In other years we have provided funding for curtains and other furnishings and we are about to help by putting funds towards the lighting that has been improved in the main hall. Some of these items may seem trivial but they all make a difference and without your help the schools' budget just cannot stretch that far. In a nutshell we make sure that all of our hard earned donations help, rather than being lost in the money pit of education.

SO PLEASE IF NOTHING ELSE BE A PART OF IT AND JUST THINK HOW AMAZING IT WOULD BE IF ALL OF OUR STUDENT'S FAMILIES GOT INVOLVED, THAT WOULD BE OVER A 1000 MEMBERS
