## A message from the local police regarding personal safety

Dear Parents and Carers,

Hitchin Police have made us aware that a number of incidents have been reported in the local area and they have asked that we remind the community about steps we all can take for our own personal safety and awareness.

For students, the journey to and from school is a time when personal safety and awareness is particularly relevant. Their advice is that students should not walk down public alleyways on their own and should always have their phone with them. If they see anything worrying, they should walk away and report it to the police using 101.

Please do share this guidance with your children at the earliest opportunity.

Yours sincerely

Yours sincerely,

James Crowther  
Headteacher
